These guys are big, bad, scary giants!

The cities are enormous with huge walls that can't ever be broken down!

Sure the grapes are huge, but imagine the size of the monsters who could eat them!

We would get totally exhausted just walking around the city, never mind fighting it!

Have you heard about the giants in the city?

What if we drown in the juice from their enormous fruits?

What if we get trapped in all the pools of honey? That's just dangerous!

We need helicopters and tanks to take over that city, and those aren't invented yet!

They have a lot of cows. I'm scared of cows. They just look funny.

Did we mention the GIANTS?

What to Do:

Print on white paper and cut apart. One set for each small group.

Sure there are giants, but God is bigger than that!

The country is full of good things, just like God told us.

Guess what? They have lots of awesome cows and great fields to raise them in!

The city is big and strong, but God is stronger!

God has done great things for us before!

Nobody panic. God will give us what we need.

I have no idea how we'd take over the city, but God will help us!

This is where God told us to go! Let's go!

What are you waiting for? There's plenty of room for all of us there!

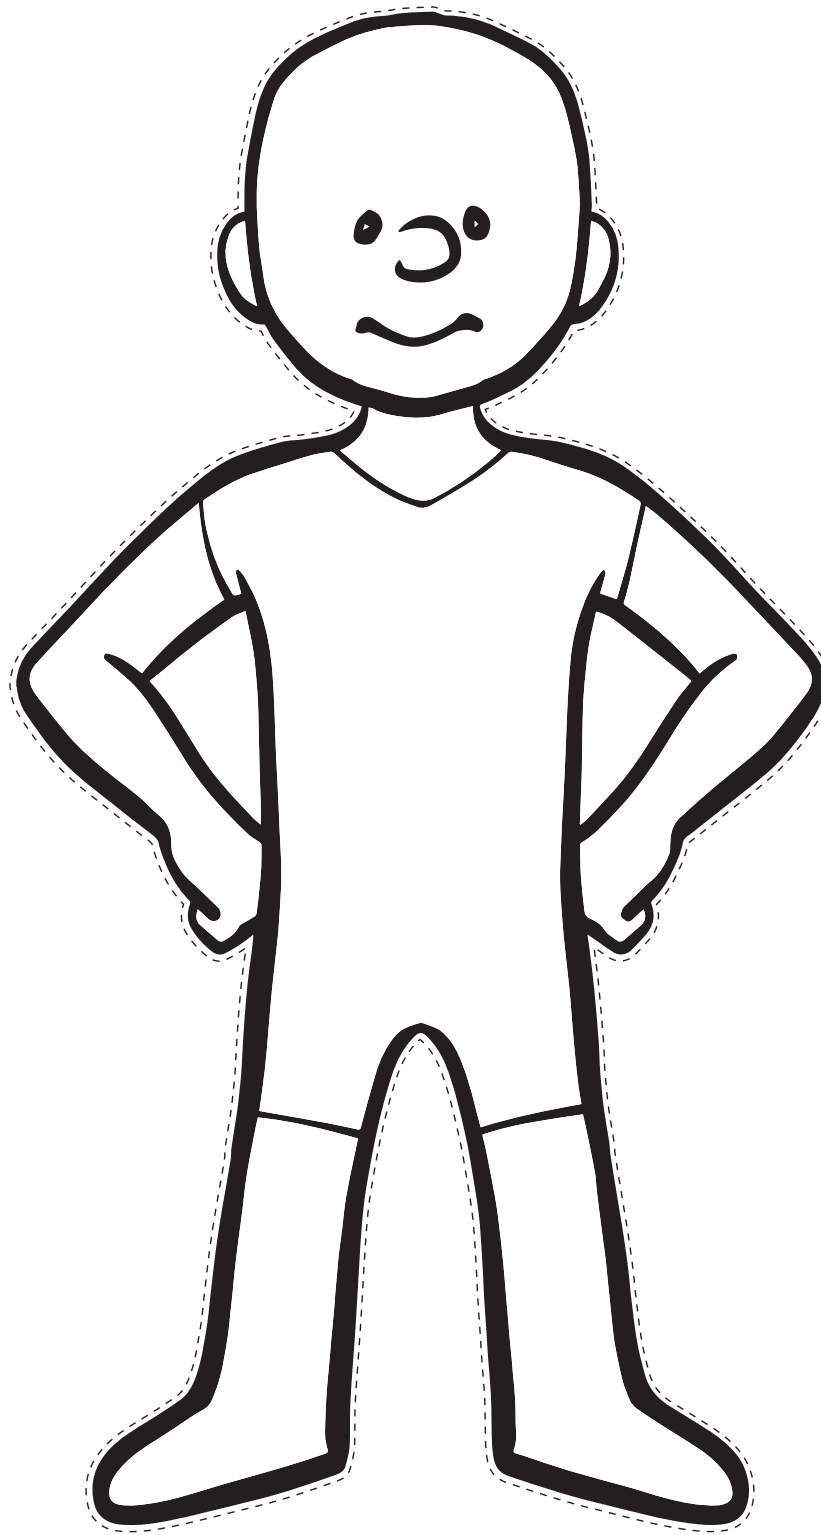

There is no giant that could be bigger than God!

What to Do:

Print on white paper and cut apart. One set for each small group.
